An Old Timer-

The following rather remarkable story s taken from the Garden City Herald: "W. B. Adams, an inmate of the Soldiers' Home at Dodge City, was in the city on Monday, having been in Garfield county on business the past week. In 1863 Mr. Adams had charge of the bus ness of the Hudson Bay Fir Company in the Arkansas valley with headquarters at Ft. Dodge. His business was trading with the Osage and other tribes of Indians, that frequented the plains in those early days, when at different times troops under Merritt, Custer and Smith had place the Santa Fe and Rock Island have headquarters in the old Fort. A difficulty occurred near the Ark on Monday evening. The trouble grew out of the issuing of a subpoena by County Attorney Madison for Nelson Wright, in which the latter was summoned to appear as a witness in a liquor case. It is claimed by Wright that the county attorney had promised not to molest him, provided he did not engage in the liquor ousines, and the latter claimed that the contract was broken in summoning him as a witness. As his name was handed in to the county attorney the latter had the subpoens issued. Meeting blm near the Ark Monday evening, Wright reother goods, you can trade for them with monstrated with him for issuing the subcalves, pigs, colts, or anything that is poens. Madison told Wright that he good to eat for man or heast, at P. H. was compelled to issue it, and started to move on when Wright struck him, knocking him down. Madison was dazed by the blow, but as soon as he recovered he arose and ran Into the Ark, Wright following and again attacking him. Sheriff Bell who was in the neighberhood, heard the melee and as soon as possible prevented further trouble. A warrant was issued for Wright and Sheriff Bell arrested him. The attack was unprovoked, as Madison was performing his duty as an officer in serving the subpoena, and it is everywhere condemned. It is unfortunate that such occurrences take place, even though not frequently, for they give Dodge the

Eczema From Childhood. When an infant, my body broke out all over with an eruption or rash, which became more aggravated as I grew older. From early childhood until I was grown my family speat a fortune trying to cure me of the disease. Every noted physician in our country was tried or consult ed. After that, under the advice of a noted specialist, I tried the celebrated Clifton Springs, New York, without any good results. When all things failed I determined try to S. S.
